

# PIÉTRAIN

by Nucléus

The reference of economical efficiency

## TO IMPROVE RESULTS OF MY COMPANY

## KEY POINTS

### GGP FARMS : PURE PIÉTRAIN BOARS

  
**2,09 FCR**  
18 - 105 kg

  
**1065 g/d  
ADG**  
18 - 105 kg

### PRODUCTION FARM RESULTS

  
**2.29 FCR**  
18 - 105 kg

  
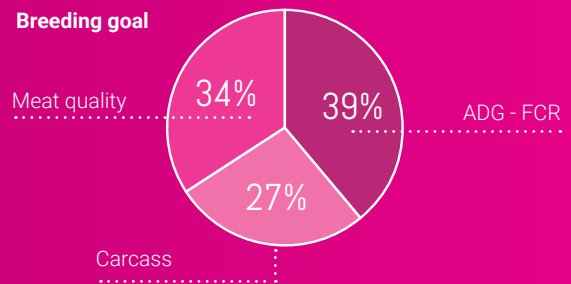

**805 g/d  
ADG**  
18 - 105 kg

## DESCRIPTION

We strongly focus on **legs quality, rusticity** and **top body shape** when selecting boars Piétrain **By Nucléus**.

### Breeding goal

## DATA

- **900** GGP Piétrain sows to produce boars Piétrain By Nucléus
- **620** boars Piétrain By Nucléus enter each year in AIC in France
- **1.7** million doses sold every year in France

	Piétrain By Nucléus
Age at 100 kg (live weight)	128 days of life
Lean Meat Percentage	67,8%

## SANITARY STATUS

Breeding farms with air filtration systems. Each farm is regularly controlled for major diseases in order to deliver the healthiest animals : free of *Mycoplasma hyopneumoniae*, *Actinobacillus pleuropneumoniae*, *Atrophicans Rhinitis*, *PRRS*.

## THE OPINION OF A FARMER

“ By choosing the Piétrain By NUCLEUS, I wanted **to combine 4 criteria: FCR, growth, LMP and heavy carcasses**. I am reaching these aims: 2.29 FCR (18-105 kg) and 905 g ADG (18-105 Kg), high LMP with 96.1 kg cold carcass weight. ”

**F. Bossard**  
GAEC des Rosiers - Production farm
